About AMOEBA:

AMOEB A group's objective is to become the global leader in eliminating waterborne bacterial risk in water treatment and wound care applications. Our solutions represent alternatives to chemical products widely used in the cooling water treatment and the wound care market. In a global market for chemical biocides estimated to be worth EUR 21 bn(1) AMOEB A is focusing on the industrial cooling tower application estimated at EUR 1.7 bn(2). Similarly, in a global wound care market estimated at EUR 15.2bn(3), AMOEB A is targeting the chronic wound care market in the USA, estimated to be worth EUR 751 million(4). The use of Willaertia magna C2c Maky in health care products will be subject to FDA (Food and Drug Administration) clearance in the USA. AMOEB A's biological biocide for water treatment, BIOMEBA, has not yet been granted marketing authorization in the USA, Europe and Canada. AMOEB A is taking the required regulatory steps to be granted marketing authorization in those regions for the use of BIOMEBA in cooling water systems. Based in Chassieu (Lyon, France), AMOEB A is quoted on compartment C of the Euronext Paris stock exchange and joined the CAC® Small index on 21st September 2015.
